

Dear Out of School Families,

Thank you for choosing our program and participating with your child! We've been coaching soccer for a combined decade plus and can say with confidence and love that the Little Lions Club is our greatest passion and most proud accomplishment. We'd like to use this opportunity to explain to families who we are, what we do, and how to register!

### **Who We Are**

Little Lions Club is a first-touch soccer program for children ages 2-5. Most of our families know us as a program which visits local preschools and daycares to coach our fun-based soccer games on site, once a week. In addition to these preschool programs, we are also proud to offer twice weekly out of school classes at Quarterpath!

### **What We Do**

We play simple, fun-based games for 45 minutes per session at Quarterpath. Classes are comprised of 3 curriculum-based games, which rotate per class so that each month all players get to play unique games in each class. Our mission is to bring our core values of sportsmanship, love, respect, and fun into each class. When you bring your child for class, you'll probably see our coaches having as much fun as the players!

### **Payment/Registration**

Registration and payment is simple; you can sign up on our website at <https://littlelionsfitness.com/registration/> **at any time**. Each \$75 subscription payment gets you 4 classes, and once you're enrolled, payments will automatically be drawn from your account **every 30 days**. Let us emphasize this point: **sign up whenever!** If you fall in love with us after reading this FAQ (which we hope you do), your 4 sessions will begin during the next available class. So click the link either above or below to get started today - we can't wait to meet you and your player!
